

Student Council

The Student Council [<https://consellmed.wordpress.com/>] represents the student body of the Faculty at every level of the the UdL. Also, it promotes the relationship and exchange experiences with other faculties. The Student Council members meet twice a month to speak about different issues of the Faculty. Moreover, they also speak about the changes that take place in the society and in the medical world.

The Student Council organizes activities like the Cultural Week of Medicine. The students of the Faculty of Medicine of Lleida are members of the CEMCAT [<http://www.cemcat.blogspot.com.es/>] (Students Council of Medicine of Catalonia) and of the CEEM [<http://www.ceem.org.es/>] (State Council of Medicine Students). They also take part in all their activities.
